

MAERSK CONTAINER INDUSTRY

Maersk Container Industry AS (MCI), a part of A.P. Moller – Maersk Group, is a global company manufacturing world-class transportation equipment solutions to a global customer base.

MCI headquarters is located in Tinglev, Denmark, while the three production sites are located in China. The MCI Group employs approximately 5,700 people and offers three unique products; dry containers, reefer containers and Star Cool reefer machines. MCI is currently facing rapid growth and further growth is expected over the next couple of years. Therefore MCI is now looking for a

Purchaser with a technical mind-set

The Position:

As a Purchaser you will be responsible for purchasing of various selected commodities and services. You will have reference to the Head of QA/AC, Purchasing & Logistics.

The position includes a close cooperation with suppliers, both existing and potential, as setup and maintenance of supplier agreements is a considerable part of the position, wherefore it is important that you enjoy working closely together with others. The suppliers are located all over the world, which entails that the right candidate has an international mindset and good language proficiency.

You will work closely together with our Engineers in the R&D department as well as our colleagues at the production facilities abroad as connection point to the suppliers.

Experience:

- You have an education within Purchasing/Logistics, Administration or Engineering
- You have 1-3 years of experience within the area
- You have flair for and experience with technique
- You master English on negotiation level

The ideal candidate:

- You are ambitious and result orientated
- You are persistent and structured in your working methods
- You are self-starting and have a high energy level
- You are willing to travel (approx. 30 days per year)

We expect the successful candidate to be willing to settle close to the company.

MCI offers you a challenging and responsible job in an international, informal and team orientated environment. The position offers you optimum opportunities for both professional and personal development, ensuring that you always remain on the leading edge within your field.

If you find the position of interest, we look forward to receiving your application and CV. Please mark your application "Purchaser".
